

Let us present the most effective marketing tool ever existing!

Unique

Mytoz is unique as it starts with the interests of the consumer and presents the advertising in a way that does not disturb the use of the phone. Members get free calls, sms and surf and a free smartphone.

Accurate

Sent to a precise target group chosen from our member's database, where information has been collected from the users of our free mobile phones and network services.

Visible

The ads cover 100% of the phones screen. There are no other messages, buttons or apps visible. No disturbance when the user looks at the screen, so it will always be 100% visible.

Relevant

The message sent to each user is adapted to his person and interests, so he will only receive relevant messages.

How

A one-time membership fee, that gives access to a free phone and free communication plus messages and offers that are relevant to the user.

Who

Rolf Lundqvist, founder and CEO, leading positions at IKEA, H&M, Gap, Banana Republic, OWIO.
